ABOUT ME

Driven Fullstack Developer with a Bachelor's in Automation Engineering and Computer Science with 4 years of experience in building scalable applications using **.NET**, **Angular**, and **React**. Proficient in both front-end and back-end technologies, with strong skills in **C#**, **SQL**, **Javascript**, and cloud solutions using **Azure**, certified by **Microsoft**.

SKILLS

- Languages & Frameworks: **C#**, **.NET Framework**, **Angular**, **React.js**, **Javascript**, **TypeScript**, **SQL**, **HTML**, **CSS**
- Database & Cloud: **Azure Cloud Admin**, **Microsoft SQL Server**, **PostgreSQL**, **Entity Framework**, **MongoDB**
- Tools & Methodologies: **Git**, **SonarCloud**, **Jira**, **Agile Development**, **Azure DevOps**, **Qorus**, **SharePoint**

CERTIFICATIONS

- **Microsoft Azure Developer Associate (AZ-204)** - Microsoft Certified
- **Microsoft Azure Administrator Associate (AZ-104)** - Microsoft Certified
- **Web Design** - Education Ministry of Romania

LANGUAGE SKILLS

- English (C1 - Professional level)
- French (A2 - Basic level)
- Willing to learn Dutch
- Romanian (Native language)
- German (A1 - Beginner level)
- Willing to learn German

WORK EXPERIENCE

- | | |
|------------------------|--|
| Nov 2024 -
Current | .NET Software Developer - Sedona Digital (Full-time) <ul style="list-style-type: none">• Built and maintained full-stack features using C#, ASP.NET MVC/.NET, SQL, Razor, HTML/CSS, and JavaScript, contributing to the delivery of multiple production releases in an Agile team.• Refactored legacy backend and Razor view code to improve readability and maintainability, helping reduce recurring bugs and making day-to-day troubleshooting faster for the team.• Improved performance of key flows by optimizing SQL queries and backend data-processing logic, contributing to noticeably better response times in frequently used operations.• Redesigned and cleaned up Razor pages and reusable UI components, improving consistency and responsiveness while reducing front-end rework during feature updates.• Proactively suggested and implemented practical engineering improvements (code structure, review feedback, implementation patterns), contributing to smoother collaboration and more predictable delivery.• Took ownership, on my own initiative, of an entire project area end-to-end (analysis, implementation, and support), with a primary focus on document generation and advised on front-end refactoring when needed. |
| Jul 2024 -
Nov 2024 | Fullstack Developer - Freelance (Part-time) <ul style="list-style-type: none">• Built a responsive booking application from scratch using React.js and PostgreSQL, with automated email notifications via EmailJS, enhancing user engagement and designed a dynamic, intuitive front-end with Javascript and TypeScript for a smooth user experience.• Implemented PostgreSQL for robust database management, ensuring efficient CRUD operations and data integrity for user bookings, controlled by a Next.js back-end. |
| Dec 2023 -
Jul 2024 | Fullstack Developer - NetCare International ApS (Full-time) <ul style="list-style-type: none">• Developed and optimized a booking application with .NET, Angular 15, TypeScript and SQL, improving the application's performance and user experience by 30%.• Integrated APIs and optimized existing codebases for better performance, resulting in a 40% boost in efficiency and a 25% increase in maintainability.• Gained hands-on exposure to Microsoft Azure services in development and deployment workflows, supporting cloud-based application delivery and operations. |

- Jan 2023 - May 2023 **.NET Software Developer - Suvoda Software** (Internship)
- Actively engaged in hands-on development tasks, gaining practical experience within the **.NET Framework**, with a primary emphasis on **C#** programming language and **ASP.MVC**.
 - Effectively utilized **Git** for version control, contributing to a more organized and collaborative development environment.
- Jun 2022 - Nov 2022 **Junior Software Engineer - VARTA Microbattery AG** (Internship)
- Developed and maintained **WinForms** applications using **C#** to enhance automation processes and improve workflow efficiency.
 - Designed and implemented **SQL** databases to collect and store data from production machines, enabling real-time data analysis.
- Jul 2021 - Sept 2021 **Junior Automation Engineer - Caditec Automation** (Internship)
- Problem-solving abilities through dynamic interactions, gaining perspective on tackling challenges.
 - Engineered **Python** scripts to enable seamless communication between camera systems and KUKA robotic arms.

EDUCATION

- 2019 - 2023 **Bachelor of Automation Engineering and Computer Science**
- Object-Oriented Programming, Software Engineering, Database Management
 - Robotics, System Engineering, Industrial Design
- 2015 - 2019 **“Andrei Muresanu” Highschool**
- Computer Science Certificate - HTML, CSS
 - Romanian Baccalaureate - C/C++, FoxPro, English - B2 Diploma

VOLUNTEERING

- 2018 - 2023 **Happy Camps - Brasov, Romania** (Cultural Representative & Web Design Trainer)
- Organized and led a variety of cultural events for children, fostering a love for arts and culture, which significantly enhanced their creative and social skills.
 - Organized and taught web design classes for 7th and 8th grade students during camps, holding two sessions per day to introduce them to the most basic **HTML** and **CSS** for creating simple web pages.

COURSE DIPLOMAS

- **“The Ultimate C# Course”** - Krystyna Ślusarczyk (Udemy)
- **“The Complete Javascript Course”** - Jonas Schmedtmann (Udemy)
- **“The Ultimate React Course 2024”** - Jonas Schmedtmann (Udemy)
- **“Angular - The Complete Guide”** - Maximilian Schwarzmüller (Udemy)

BOOTCAMP

- Javascript Explorer - Digital Nation**
- Designed web pages with **HTML & CSS**
 - Wrote **Javascript** code and apply **Javascript** fundamentals
 - Used tools such as **React.js**, **Express** and **MongoDB**

PERSONAL PROJECTS

GitHub repository: <https://github.com/eduardkartman>

- **Brasov Central Apartments**
 - **Front-end:** Built with **React.js** and **Javascript** offering a responsive and interactive user interface. Includes features such real-time booking capabilities, automatic email confirmations, and responsive UI, and payment method.
 - **Back-end:** Powered by **Next.js**, providing a robust and scalable **API** for handling data operations and business logic.
 - **Database:** **PostgreSQL** is used as the relational database management system, ensuring reliable and efficient storage and retrieval of bookings and apartments.
- **Artist Portfolio**
 - **Frontend:** Built with **React**, offering a responsive and interactive user interface. Includes features such as adding, editing, and deleting artwork entries, with an intuitive layout and smooth transitions;
 - **Backend:** Powered by **NestJS**, providing a robust and scalable API for handling data operations and business logic;
 - **Database:** **PostgreSQL** is used as the relational database management system, ensuring reliable and efficient storage and retrieval of artwork data.
- **Bachelor’s Project - Web Application linked to A9G GPRS Modem**
 - **Backend:** Developed **ASP.MVC** Core project with **Razor Pages** using **.NET 7 Framework**, which uses **Entity Framework** and **SQL** for efficient data management;
 - **Frontend:** Developed a user-friendly interface using **HTML**, **CSS**, and **Bootstrap**, and integrated **Arduino UNO** with **A9G GPS/GPRS Modem** for SMS-based functionality.
