Professional Summary

Software Engineer experienced in designing, developing, and maintaining enterprise and customer-facing web applications using **C#, .NET, React** and **SQL**. Experienced in backend development, **API** design, database optimization, cloud-based solutions, and full software development lifecycle delivery within Agile environments.

Microsoft Certified Azure Developer (AZ-204) and **Azure Administrator (AZ-104)**, with strong interest in scalable backend architecture, cloud technologies, clean code practices, and high-quality software engineering.

Certification

- **Microsoft Certified: Azure Developer Associate (AZ-204)** – Microsoft
- **Microsoft Certified: Azure Administrator Associate (AZ-104)** – Microsoft
- **Web Developer** – Education Ministry of Romania

Technical Skills

Languages	C#, JavaScript, TypeScript, SQL
Frontend	React, Angular, Razor, HTML, CSS, Bootstrap, Vite
Backend	.NET, ASP.NET MVC, ASP.NET Core, Entity Framework, REST APIs
Databases	SQL Server, PostgreSQL, MongoDB
Cloud & DevOps	Microsoft Azure, Azure DevOps, CI/CD Pipelines
Tools & Practices	Agile, Kanban, Jira, Postman, Git

Most Relevant Professional Experience

.NET Software Engineer – Sedona Digital Ltd (Nov 2024 – Present)

- Develop and maintain enterprise web applications using C#, ASP.NET MVC, SQL Server, Razor, JavaScript, HTML, and CSS.
- Own and maintain a business-critical document generation subsystem, covering analysis, implementation, production support, troubleshooting, and continuous improvements.
- Refactor legacy backend and frontend components to improve maintainability, scalability, and long-term platform stability.
- Design and implement enhancements for data-driven business workflows used within enterprise environments.
- Optimized SQL queries and backend workflows supporting enterprise document processing operations.
- Collaborate with cross-functional teams through Agile delivery processes, including code reviews, feature planning, testing, and production support.

Full-Stack Developer – Freelance (Jul 2024 – Nov 2024)

Project: Brasov Central Apartments Booking Platform – React, Next.js, TypeScript, PostgreSQL

- Designed and developed a complete booking platform using React, Next.js, TypeScript, and PostgreSQL.
- Implemented booking management workflows, customer-facing interfaces, and backend APIs.
- Built responsive and maintainable frontend architecture focused on usability and performance.
- Designed relational database structures and implemented data access logic for booking operations.
- Integrated automated email notifications and customer communication workflows.

Full-Stack Developer – NetCare International ApS (Dec 2023 – Jul 2024)

- Developed and maintained booking platform functionality using .NET, Angular 15, TypeScript, and SQL Server.
- Designed and implemented new frontend and backend features supporting booking management workflows.
- Integrated third-party APIs and optimized application flows to improve maintainability and user experience.
- Collaborated within Agile development teams to deliver production-ready software features.
- Worked with Azure-based development and deployment workflows.

.NET Software Developer Intern – Suvoda Software S.R.L. (Jan 2023 – Jun 2023)

- Contributed to .NET application development using C#, ASP.NET MVC, and enterprise software engineering practices.
- Participated in structured development workflows including source control, debugging, testing, and feature implementation.
- Collaborated with experienced engineers while gaining exposure to enterprise-scale software development processes.

Additional Professional Experience

Junior Software Engineer – VARTA Microbattery AG (Jun 2022 – Nov 2022)

- Contributed to software development and automation initiatives within manufacturing environments.

Junior Automation Engineer – Caditec Automation S.R.L. (Jul 2021 – Sept 2021)

- Supported industrial automation and engineering activities.

Education

Bachelor's Degree in Computer Science and Automation Engineering

"Transylvania" University of Brasov

Oct. 2019 – Jun. 2023

JavaScript Explorer – Bootcamp, Advanced JavaScript

Digital Nation

Sept. 2024 - Nov. 2024

Languages

English – C1 Professional

Romanian – Native

French – A2 Basic

Spanish – A1 Beginner

Volunteering

Happy Camps – Cultural Representative & Web Design Trainer (Apr 2018 – Sept 2022)

Organized cultural and educational activities for children and introduced students to HTML and CSS fundamentals through interactive workshops.

Personal Projects

Bachelor's Project – Smart Clinic Monitoring Platform

- Developed a full-stack web application using ASP.NET Core MVC (.NET 7), Razor Pages, Entity Framework, and SQL Server for secure and scalable data management.
- Designed and implemented responsive frontend interfaces using HTML5, CSS3, Bootstrap, and JavaScript to improve usability and user interaction.
- Built backend business logic and database workflows for real-time monitoring and automated event handling.
- Integrated Arduino UNO and A9G GPS/GPRS hardware modules to support SMS-based event notification workflows and real-time device communication.
